

# Contents

## Preface

### 1 Introduction

- 1.1 General overview
- 1.2 Development of panel products
- 1.3 Standards and legislation
  - 1.3.1 Standards
  - 1.3.2 Construction Products Regulation (CPR)
- 1.4 Product types
- 1.5 Veneer and core plywood
- 1.6 Particleboard
- 1.7 Oriented strand board (OSB)
- 1.8 Flaxboard
- 1.9 Cement-bonded particleboard
- 1.10 Fibreboards
- 1.11 References

### 2 Panels for use in construction

- 2.1 General
  - 2.1.1 Legislation and regulations
  - 2.1.2 Product supply chain
  - 2.1.3 CE marking
  - 2.1.4 UK Building Regulations
  - 2.1.5 Further information
  - 2.1.6 References
- 2.2 Factors in design
  - 2.2.1 Structural application (load-bearing)
  - 2.2.2 Non-structural applications
  - 2.2.3 Fire performance
  - 2.2.4 References
- 2.3 Selection of panels for specific end use: general requirements
- 2.4 Application of panels in flooring
  - 2.4.1 Selection of panels for flooring
  - 2.4.2 The design of timber floor decking
  - 2.4.3 Sitework: floor decking on joists
  - 2.4.4 Sitework: floating floor decking
  - 2.4.5 Finishing
  - 2.4.6 References
- 2.5 Application of panels in flat roof decking
  - 2.5.1 Selection of panels for flat roof decking
  - 2.5.2 The design of flat roof decking
  - 2.5.3 Sitework
  - 2.5.4 Reference
- 2.6 Application in pitched roofing (sarking)
  - 2.6.1 Selection of panels for pitched roof sarking
  - 2.6.2 The design factors relating to sarking
  - 2.6.3 Sitework: roof sarking
  - 2.6.4 Coverings
  - 2.6.5 References
- 2.7 Application of panels in structural wall sheathing
  - 2.7.1 Selection of panels for sheathing
  - 2.7.2 Design of structural sheathing
  - 2.7.3 Sitework

- 2.8 Application of panels in the production of box beams and I-beams
  - 2.8.1 Selection of panels for box beams and I-beams
  - 2.8.2 The design of box beams and I-beams
  - 2.8.3 Storage and installation of box beams and I-beams
  - 2.8.4 References
- 2.9 Application of panels in the production of formwork
  - 2.9.1 Selection of panels for formwork
  - 2.9.2 Sitework
  - 2.9.3 Reference
- 2.10 Application of panels in cladding, fascias and soffits
  - 2.10.1 Selection of panels for claddings, fascias and soffits
  - 2.10.2 Design of cladding
  - 2.10.3 Design of fascias and soffits
  - 2.10.4 Site work for cladding, fascias and soffits
  - 2.10.5 Finishes for cladding, fascias and soffits
- 2.11 Application of panels in architectural mouldings and window boards
  - 2.11.1 General
  - 2.11.2 Selection of panels for the production of mouldings and window boards
- 2.12 Application of panels as wall linings and partitions
  - 2.12.1 Selection of panels for wall linings and partitions
  - 2.12.2 Design factors in linings and partitions
  - 2.12.3 Other considerations
  - 2.12.4 Sitework
  - 2.12.5 Finishes
  - 2.12.6 Reference
- 2.13 Application of panels in door skins
  - 2.13.1 Selection of panels as door skins
- 2.14 Application of panels for staircase treads and risers
  - 2.14.1 Selection of panels for treads and risers

### 3 Panels for non-construction use

- 3.1 Requirements for non-construction use
- 3.2 Panels satisfying the requirements for non-construction uses
  - 3.2.1 Introduction
  - 3.2.2 Furniture
  - 3.2.3 Packaging
  - 3.2.4 Shopfitting
  - 3.2.5 Transport
  - 3.2.6 Agriculture
  - 3.2.7 Other applications
- 3.3 References

### 4 Storage, handling, cutting, fixing and finishing

- 4.1 General
- 4.2 Storage and transportation
  - 4.2.1 Stacking

- 4.2.2 Protection during transport
  - 4.2.3 Storage on site
  - 4.2.4 Conditioning
  - 4.3 Handling
    - 4.3.1 General
  - 4.4 Cutting and machining
    - 4.4.1 General
    - 4.4.2 Cutting with hand tools
    - 4.4.3 Machining with power tools
    - 4.4.4 Requirements for different panel types
    - 4.4.5 Pre-finished and faced panels
    - 4.4.6 Health and safety
  - 4.5 Fixing and installation
    - 4.5.1 General
    - 4.5.2 Conditioning
    - 4.5.3 Movement gaps
    - 4.5.4 Edge distances
    - 4.5.5 Length of fixings
    - 4.5.6 Nails
    - 4.5.7 Screws
    - 4.5.8 Staples
    - 4.5.9 Special fasteners
    - 4.5.10 Adhesives
    - 4.5.11 Fixing requirements for different products
  - 4.6 Joints and joint details
    - 4.6.1 Conditioning
    - 4.6.2 Panel to panel joints
    - 4.6.3 Lining and cladding joint types
    - 4.6.4 Carcase joints
    - 4.6.5 Edging and lipping
  - 4.7 Decoration and finishing
    - 4.7.1 General
    - 4.7.2 Conditioning
    - 4.7.3 Adhesives
    - 4.7.4 Painting and sealing
    - 4.7.5 Ceramic tiling
    - 4.7.6 Finishing softboard
    - 4.7.7 Finishing mediumboard and hardboard
    - 4.7.8 Finishing MDF
    - 4.7.9 Finishing particleboards and flaxboards
    - 4.7.10 Finishing OSB
    - 4.7.11 Finishing cement-bonded particleboard (CBPB)
    - 4.7.12 Finishing plywood
  - 4.8 References
- 5 Environmental aspects**
- 5.1 Sustainability
  - 5.2 Environmental advantages of wood
  - 5.3 Raw materials used in the manufacture of wood-based panels
    - 5.3.1 Virgin (non-recycled) fibre
    - 5.3.2 Recycled fibre
    - 5.3.3 Standards governing the quality and safety of recycled wood
  - 5.4 Responsible sourcing
    - 5.4.1 International policy response to illegal logging
    - 5.4.2 EU Timber Regulation
    - 5.4.3 Certified timber

- 5.5 Environmental performance of products
    - 5.5.1 Introduction
    - 5.5.2 Carbon footprint calculation
    - 5.5.3 Wood for Good Lifecycle Database
    - 5.5.4 BRE Green Guide to Specification
  - 5.6 References
- 6 Health and safety**
- 6.1 Introduction
  - 6.2 Health and safety legislation (UK)
    - 6.2.1 Health and Safety at Work Act 1974
    - 6.2.2 Management of Health and Safety at Work Regulations 1999
    - 6.2.3 The Construction (Design and Management) Regulations 2007 (CDM)
    - 6.2.4 Provision and Use of Work Equipment Regulations 1998 (PUWER)
    - 6.2.5 Control of Substances Hazardous to Health Regulations 2002 (COSHH)
    - 6.2.6 Manual Handling Operations Regulations 1992 (MHOR)
    - 6.2.7 Further reading
  - 6.3 Hazards associated with wood-based panels
    - 6.3.1 General
    - 6.3.2 Handling wood-based panels
    - 6.3.3 Cutting wood-based panels
    - 6.3.4 Respiratory protective equipment (RPE)
    - 6.3.5 Hazard assessment summary
  - 6.4 Formaldehyde and wood-based panels
    - 6.4.1 Formaldehyde release from wood-based panels
  - 6.5 Exposure to formaldehyde
    - 6.5.1 General
    - 6.5.2 Hazards associated with exposure to formaldehyde
    - 6.5.3 Formaldehyde exposure in the home
    - 6.5.4 Formaldehyde exposure in the workplace
  - 6.6 References

**Annex 1**  
Glossary of terms  
General terms

**Annex 2**  
Annex 2A: Particleboard (wood chipboard)  
Description  
Composition  
Appearance  
Density, mass and panel size  
Applications  
Specification  
Physical properties  
Storage and handling  
Working with particleboard  
Health and safety  
References  
Annex 2B: OSB (oriented strand board)  
Description  
Composition  
Appearance  
Density, mass and panel size  
Applications

Specification  
Physical properties  
Storage and handling  
Working with OSB  
Health and safety  
References

Annex 2C: Cement bonded particleboard (CBPB)

Description  
Composition  
Appearance  
Density mass and panel size  
Applications  
Specification  
Physical properties  
Storage and handling  
Working with CBPB  
Health and safety  
References

Annex 2D: Plywood

Description  
Composition  
Appearance  
Density, weight and sizes  
Applications  
Specification  
Physical properties  
Storage and handling  
Working with plywood  
Health and safety  
References

Annex 2E: Dry process fibreboards (MDF)

Description  
Appearance  
Density, mass and panel size  
Applications  
Specification  
Physical properties  
Storage and handling  
Working with MDF  
Health and safety  
References

Annex 2F: Wet process fibreboards

Description  
Composition and manufacture  
Appearance  
Density, mass and panel size  
Applications  
Specification  
Physical properties  
Storage and handling  
Working with fibreboards  
Health and safety  
References

Annex 2G: Particleboard – Flaxboard

Description  
Composition  
Appearance  
Density, mass and panel size  
Applications  
Specification

Physical properties  
Storage and handling  
Working with flaxboard  
Health and safety  
References
